# (5) SERVICES OFFERED

(1) The Portfolio Manager broadly offers services under following categories:

#### a. Discretionary Services

Under these services, the choice as well as the timings of the investment decisions rest solely with the portfolio manager. In other words the portfolio manager shall have the sole and absolute discretion to invest clients' funds in any type of securities and in any market as it deems fit as per the executed agreement. The Securities invested/ disinvested by the portfolio manager for client in the same Strategy may differ from client to client. The portfolio managers' decision (taken in good faith) in deployment of the Clients' account is absolute and final and cannot be called in question or be open to review at any time during the currency of the agreement or any time thereafter except on the ground of malafide intent, fraud, conflict of interest or gross negligence etc. Periodical statements in respect of client's portfolio are sent to the respective clients.

Currently under the discretionary services, following strategies / portfolios are being offered to investors

- (i) SMC Moderate
- (ii) SMC Growth
- (iii) SMC Customized
- (iv) Equity Quant Strategy (EQS)
- (v) SMC Growth NRI

#### (i) SMC Moderate

The objective of this portfolio is to seek capital appreciation through investing mainly in proven businesses and growth potential companies to generate good returns with moderate risk over a fairly longer period. The strategy will primarily invest in equity asset class. However, we may consider other asset classes permitted by SEBI regulations. The investment will be made in fairly large and midcap companies with smaller proportion in small caps. The focus will also be on quality management with intent of good corporate governance and businesses in high growth sectors. The portfolio may also use short term investments in debt or liquid funds so as to maximize the returns or for defensive purposes whenever felt necessary. Derivatives may also be used to hedge the exposure. We have selected NIFTY 50 TRI as a benchmark for this strategy. SMC Moderate is a large cap biased multi-cap strategy; hence to increase our range of stocks we have selected NIFTY 50 TRI as benchmark.

### **Investment Approach:**

# **Investment Objective**

The objective of this portfolio is to seek capital appreciation through investing mainly in proven businesses and growth potential companies to generate good returns with moderate risk over a fairly longer period.

Description of types of securities e.g. equity or debt, listed, unlisted (if only allowed by SEBI), convertible instruments, etc.

The strategy will primarily invest in equity asset class. However, we may consider other asset classes permitted by SEBI regulations.

### Basis Of Selection Of Such Types Of Securities As Part Of The Investment Approach

Below are the stock selection parameters:

- The investment will be made in fairly large and midcap companies with smaller proportion in small caps.
- The focus will also be on quality management with intent of good corporate governance and businesses in high growth sectors.
- The portfolio may also use short term investments in debt or liquid funds so as to maximize the returns or for defensive purposes whenever felt necessary.

Derivatives may also be used to hedge the exposure.

#### Allocation of Portfolio Across Types Of Securities

The strategy will primarily invest in equity asset class. However, we may consider other asset classes permitted by SEBI regulations.

#### Benchmark To Compare Performance And The Basis For The Choice Of Benchmark

We have selected NIFTY 50 TRI as a benchmark for this strategy. SMC Moderate is a large cap biased multi-cap strategy; hence to increase our range of stocks we have selected NIFTY 50 TRI as benchmark.

#### Indicative Tenure Or Investment Horizon

Minimum three years

# **Risks Associated With The Investment Approach**

All investments involve a certain amount of risk, including the possible erosion of the principal amount invested which varies depending on the security selected. For example, investments in small and mid-sized companies tend to involve more risk than investments in larger companies.

### (ii) SMC- Growth

The objective of the strategy is to buy fundamentally sustainable growing businesses and outperform the benchmark indices by investing in equity and equity-related instruments including mutual funds. On the discretion of the Fund Manager or if the Fund Manager think it is beneficial for the client, Fund Manager can invest the 100% AUM in the equity mutual funds. The strategy will primarily invest in equity asset class. However, we may consider other asset classes permitted by SEBI regulations. Attractive Valuation, Strong Fundamentals, Future Outlook of the company and Good Corporate Governance are the stock selection parameters. We have selected BSE 500 TRI as a benchmark for this strategy. SMC Growth is a multi-cap strategy; hence to increase our range of stocks we have selected BSE 500 TRI as benchmark.

#### Investment Approach:

#### **Investment Objective**

The objective of the strategy is to buy fundamentally sustainable growing businesses and outperform the benchmark indices by investing in equity and equity-related instruments including mutual funds. On the discretion of the Fund Manager or if the Fund Manager think it is beneficial for the client, Fund Manager can invest the 100% AUM in the equity mutual funds.

# Description of types of securities e.g. equity or debt, listed, unlisted (if only allowed by SEBI), convertible instruments, etc.

The strategy will primarily invest in equity asset class. However, we may consider other asset classes permitted by SEBI regulations.

# Basis Of Selection Of Such Types Of Securities As Part Of The Investment Approach Below are the stock selection parameters:

- Attractive Valuation
- Strong Fundamentals
- Future Outlook of the company
- Good Corporate Governance

#### Allocation of Portfolio Across Types Of Securities

The strategy will primarily invest in equity asset class. However, we may consider other asset classes permitted by SEBI regulations.

# Benchmark To Compare Performance And The Basis For The Choice Of Benchmark

We have selected BSE 500 TRI as a benchmark for this strategy, SMC Growth is a multi-cap strategy; hence to increase our range of stocks we have selected BSE 500 TRI as benchmark.

#### Indicative Tenure Or Investment Horizon

Minimum three years

### Risks Associated With The Investment Approach

All investments involve a certain amount of risk, including the possible erosion of the principal amount invested which varies depending on the security selected. For example, investments in small and mid-sized companies tend to involve more risk than investments in larger companies.

#### (iii) SMC- Customised

The investment objective of this portfolio is to design a customised diversified portfolio that is consistent with client's need and objectives for capital appreciation or regular income. The asset allocation will be made as per client requirement and it can include any asset class or mix of different asset classes like equity and equity related instruments, debt and debt related instruments, all type of mutual fund instruments whether in equity or debt or mix of both and other financial instrument permitted by SEBI regulations. The portfolio manager will have the discretion to choose the instruments so as to generate the optimum returns and the portfolio can have any ratio among the asset mix as far as 100% in particular asset class towards achievement of the portfolio objective. We have selected BSE 500 TRI as a benchmark for this strategy. SMC Customised is a multi-cap strategy; hence to increase our range of stocks we have selected BSE 500 TRI as benchmark.

### **Investment Approach:**

#### **Investment Objective**

The investment objective of this portfolio is to design a customised diversified portfolio that is consistent with client's need and objectives for capital appreciation or regular income.

# Description of types of securities e.g. equity or debt, listed, unlisted (if only allowed by SEBI), convertible instruments, etc.

The asset allocation will be made as per client requirement and it can include any asset class or mix of different asset classes like equity and equity related instruments, debt and debt related instruments, all type of mutual fund instruments whether in equity or debt or mix of both and other financial instrument permitted by SEBI regulations.

The portfolio manager will have the discretion to choose the instruments so as to generate the optimum returns and the portfolio can have any ratio among the asset mix as far as 100% in particular asset class towards achievement of the portfolio objective.

The derivative instruments can also be used as may be felt suitable and desired from time to time.

### Basis Of Selection Of Such Types Of Securities As Part Of The Investment Approach

- · Fully understand client's need and objectives.
- Investment according to client's goal and risk ability
- Regular review of client's need
- Investment in different asset classes to follow the diversification

# **Allocation Of Portfolio Across Types Of Securities**

The asset allocation will be made as per client requirement and it can include any asset class or mix of different asset classes like equity and equity related instruments, debt and debt related instruments, all type of mutual fund instruments whether in equity or debt or mix of both and other financial instrument permitted by SEBI regulations.

As per clients investment goals

#### Risks Associated With The Investment Approach

All investments involve a certain amount of risk, including the possible erosion of the principal amount invested which varies depending on the security selected. For example, investments in small and mid-sized companies tend to involve more risk than investments in larger companies.

# c. Advisory Services

The Portfolio Manager will also provide Advisory Portfolio Management Services, in terms of the Regulations, which shall be in the nature of investment advisory and shall include the responsibility of advising on the portfolio strategy and Investment and divestment of individual securities on the client's portfolio, for an agreed fee structure, entirely at the Client's risk. Portfolio Manager may provide advice to client to invest in unlisted securities, as per the Portfolio Managers Regulations updated by SEBI from time to time.

The Portfolio Manager shall be solely acting as an advisor to the portfolio of the client and shall not be responsible for the investment/ divestment of securities and/ or administrative activities on the client's portfolio. The Portfolio Manager shall, provide advisory services in accordance with such guidelines and/or directives issued by the regulatory authorities and/ or the Client, from time to time, in this regard. The clients of the portfolio managers could be Indian resident investors and / or offshore investors.

The services provided to clients are in accordance with the legal agreements / other documents executed with them.

# 2. Type of securities where investment may be made by the Portfolio Manager.

The Portfolio Manager reserves the right to invest in all permitted securities, instruments and assets as permitted under the applicable Rules and Regulations. The uninvested amounts forming part of the Client's Assets may be at the discretion of the Portfolio Manager be held in cash or deployed in Liquid fund schemes, Exchange Traded Index funds, debt oriented schemes of Mutual funds, Gilt schemes, Bank deposits and other short term avenues for Investment. The Portfolio Manager may lend the securities through an Approved Intermediary, for interest as per applicable rules and regulations.

The performance of the Portfolios may not be strictly comparable with the performance of the Indices, due to the inherent differences in the construction of the portfolios. The Portfolio Manager may from time to time, review the benchmark selection process and make suitable changes as to use of the benchmark, or related to composition of the benchmark, whenever it deems necessary.

# 3. Policy for investment in group/ associate companies and availing of services of group/associate companies

The Portfolio Manager may invest in shares, mutual funds, debts, derivatives, deposits and other financial instruments of Group / associate Companies / entities subject to applicable Laws/Regulations & Guidelines.

The Portfolio Manager may also utilize the Services of Associate/Group Companies. The Portfolio Manager shall avail services from such companies on commercial terms and on arms length basis and to the extent permitted under SEBI Regulations.

### 6. RISK FACTORS

The following is an indicative list of some of the risks associated with the Services / Portfolios;

- (a) Investments in securities are subject to market and other risks, the portfolio Manager makes no guarantee or assurance that the objectives of the Strategies/portfolio will be achieved. The investments may not be suited to all kind of investors.
- (b) The past performance of the Portfolio Manager does not indicate the future performance of the same Strategy in future or any other future Strategies of the portfolio manager,
- (c) Investors are not being offered any guaranteed or assured return/s i.e. either of Principal or appreciation on the portfolio.
- (d) The debt instruments and other fixed income securities may be subject to interest rate risk, liquidity risk, credit risk and reinvestment risk. Liquidity in these investments may be affected by the trading volumes, settlement periods and transfer procedures.
- (e) In case of investments by a portfolio in the schemes of Mutual Funds, investors may have to bear the expenses as charged by the portfolio manager, over and above the expenses charged, to the underlying scheme(s) by the investment manager (s) of the Mutual Fund scheme(s).
- (f) Investors may note that Portfolio Manager's investment decisions may not be always profitable, as actual market movements may be at variance with anticipated trends.
- (g) The liquidity of the Portfolio's investments is inherently restricted by trading volumes in the securities in which it invests.
- (h) The valuation of the Portfolio's investments, may be affected generally by factors affecting securities markets, such as price and volume volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the Government, taxation laws or any other appropriate authority policies and other political and economic developments which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets. There will be no prior intimation or prior indication given to the Clients when the composition/ assets allocation pattern changes.
- (i) The portfolio investments and returns on portfolios may be affected due to trade execution risk, delisting of securities, company level risk, concentration risk, country level risk and non-performance or execution out of natural calamities or any other unforeseen risk of such nature.
- (j) Technology stocks and some of the investments in niche sectors run on the risk of volatility, high valuation, obsolescence and low liquidity.
- (k) Trading Volumes, settlement periods and transfer procedures may restrict the liquidity of the investments made by the Portfolio. Different segments of the Indian Financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. The inability of the Portfolio Manager to make intended securities purchases due to

settlement problems could cause the Portfolio to miss certain investment opportunities. By the same rationale, the inability to sell securities held in the portfolio due to absence of a well developed and liquid secondary market for debt securities would result, at times, in potential losses to the Portfolio, in case of a subsequent decline in the value of securities held in the Portfolio.

- (l) The Portfolio Manager may, considering the overall level of risk of the portfolio, invest in lower rated/unrated securities offering higher yields, zero coupon securities that offers attractive yields, unlisted securities, or any other similar securities. This may increase the risk of the portfolio. Such investments shall be subject to the scope of investments as laid down in the Agreement.
- In case of Dividend Yield Portfolios, returns of the Portfolio could depend on the dividend earnings and capital appreciation, if any, from the underlying investments in various dividend yielding companies. The dividend earnings of the portfolio may, vary from year to year based on the philosophy and other consideration of each of the high-dividend yielding companies. Further, it should be noted that the actual distribution of dividends and frequency thereof- by the high dividend yielding companies in future would depend on the quantum of profits available for distribution by each of such companies. Dividend declaration by such companies will be entirely at the discretion of the shareholders of such companies, based on the recommendations of its Board of Directors. Past track record of dividend distribution may not be treated as indicative of future dividend declarations. Further the dividend yielding stocks may be relatively less liquid as compared to growth stocks.
- (n) Securities, which are not listed on the stock exchanges, are inherently illiquid in nature and carry a larger amount of liquidity risk, in comparison to securities that are listed on the exchanges or offer other exit options to the investor, including a put option. The Portfolio Manager may choose to invest in unlisted securities that offer attractive yields. This may however increase the risk of the portfolio. Such investments shall be subject to the scope of investments as laid down in the Agreement.
- (o) While securities that are listed on the Stock Exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges. Money market securities, while fairly liquid, lack a well developed secondary market, which may restrict the selling ability of the Portfolio(s) and may lead to the investment(s) incurring losses till the security is finally sold.
- (p) To the extent that the portfolio will be invested in securities denominated in foreign currencies, the Indian Rupee equivalent of the net assets, distributions and income may be adversely affected by changes in regulations concerning exchange controls or political circumstances as well as the application to it of other restrictions on investment.
- (q) Interest Rate Risk: As with all debt securities, changes in interest rates may affect valuation of the Portfolios, as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of long term securities generally fluctuate more in response to interest rate changes than prices of Short- term securities. Indian debt markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the valuations of Portfolios.
- (r) Liquidity or Marketability Risk: This refers to the ease with which a security can be sold at or near to its valuation yield- to maturity (YTM). The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is today characteristics of the Indian fixed income market.
- (s) Credit Risk: Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e. will be unable to make timely principal and interest payments on the security). Because of this risk corporate debentures are sold at a higher yield above those offered on Government Securities which are sovereign obligations and free of credit risk. Normally, the value of fixed income security will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to be compensated for the increased risk.
- (t) Reinvestment Risk: This risk refers to the interest rate levels at which cash flows received from the securities under a particular Portfolio are reinvested. The additional income from reinvestment is

the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.

- (u) Currency Risk: The Portfolio Manager may also invest in overseas Fixed Income or other Securities/ instruments as permitted by the concerned regulatory authorities in India. To the extent that the portfolio of the Strategy will be invested in securities/ instruments denominated in foreign currencies, the Indian Rupee equivalent of the net assets, distributions and income may be adversely affected by changes/ fluctuation in the value of certain foreign currencies relative to the Indian Rupee, The repatriation of Capital to India may also be hampered by changes in regulations concerning exchange controls or political circumstances as well as the application to it of other restrictions on investment.
- (v) The portfolio Manager may use various derivative products as permitted by the Regulations. Use of derivatives requires an understanding of not only the underlying instrument but also of the derivative itself. Derivatives requires the maintenance of adequate controls to monitor the transactions entered into, the ability to access the risk that a derivative adds to the Portfolio. Some of other risks include, the risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices. Such products are highly leverage instruments and their uses require a high degree of skill, diligence and expertise. Small price movements in the underlying security may have a large impact on the value of derivatives/ futures and options. Also the derivatives/ future and options market is nascent in India.
- (w) The Portfolio Manager may use derivatives instruments like Stock/ Index Futures and Options, Interest Rate Swaps, Forward Rate Agreements or other derivative instruments, as permitted under the Regulations and guidelines. Usage of derivatives will expose the Portfolio to certain risks inherent to such derivatives.
- (x) The names of the Strategies do not in any manner indicate their prospects or returns. The performances in the equity Strategies may be adversely affected by the performance of individual companies, changes in the market place and industry and macro economic factors.
- (y) The Strategies may invest in no-publicly offered debt securities and unlisted equities. This may expose the Strategy to liquidity risks and credit risk.
- (z) Engaging in securities lending is subject to risks related to fluctuations in collateral value/ settlement / liquidity and counter party.
- (aa) In the case of stock lending, risk relate to the default from counter parties with regard to security length and the corporate benefits accruing thereon, inadequacy of collateral and settlement risks. The Portfolio Manager is not responsible or liable for any loss resulting from the operations of the Strategies.
- (bb) The Portfolio Manager is not responsible or liable for any loss resulting from the operations of the Strategies. All Strategies under portfolio management are subject to change at any time at the discretion of the Portfolio Manager.
- (cc) Portfolio Manager is also registered as a broker with SEBI. Therefore, Portfolio Manager is taking a broking services from the SMC Global Securities Limited.
- (dd) Exposure to select sector(s)carry the performance risk of the relevant sector, which could outperform or under perform the market and / or various indices.
- (ee) All risks arising out of refusal by a Company or corporation for whatever reasons, to register the transfer of any of the securities in the name of the Client or the Portfolio Manager shall be borne by the client. The Securities which are so purchased and not transferred in the name of the Client or the Portfolio Manager, will be sold by the Portfolio Manager, at the best available market rate, at the risk of the Client.

With effect from 01st September 2019, all the clients of SMC Investments and Advisors Limited shall become the clients Company.

# 10. Audit Observations

There is no observation raised by the Auditor since the date of PMS license obtained from SEBI vide registration number INP000006703 under SEBI (Portfolio Managers) Regulations dated 26th April 2019

### 11. NATURE OF EXPENSES

The following are indicative types of cost and expenses for clients availing the portfolio management services. The exact basis of charge relating to each of the following shall be as per/annexed to the Portfolio Management Agreement and the agreements in respect of each of the services availed at the time of execution of such agreements.

# (i) Portfolio Management and Advisory Fees

Management Fees relate to the Portfolio Management Services offered to clients. The fee may be fixed charge or a percentage of the quantum of funds manages or linked to portfolio returns achieved or a combination of any of these, as agreed by the Client in the Client Agreement. The fee may include the upfront fees or pre-mature withdrawal fee or any other fees as decided by the Portfolio Manager. Profit /performance shall be computed on the basis of High Water Mark principle over the life of the investment, for charging of performance / profit sharing fee

High Water Mark Principle: High Water Mark shall be the highest value that the portfolio/account has reached. Value of the portfolio for computation of high watermark shall be taken to be the value on the date when performance fees are charged. For the purpose of charging performance fee, the frequency shall not be less than quarterly. The Portfolio Manager shall charge performance based fee only on increase in portfolio value in excess of the previously achieved High Water Mark.

With regard to the management fees linked to portfolio returns achieved, the terms will be decided as per the Client agreement.

# Premature Exit/ Withdrawal Guidelines

# (a) Fixed Fee option

In case of withdrawal/ part withdrawal before completion of any quarter, full fee for that quarter will be charged.

# (b) Profit Sharing Option

Fee charged would be total of the fixed part of the management fee as well as profit sharing on the basis of the Portfolio Management Agreement and its schedules and annexure. Profit /performance shall be computed on the basis of High Water Mark principle over the life of the investment, for charging of performance / profit sharing fee.

### (ii) Custodian/ Depository Fees

The charges relate to opening and operation of depository accounts, custody and transfer charges for shares, bonds and units, dematerialization and rematerialization, Pledge and other charges in connection with the operation and management of the depository accounts.

# (iii) Registrar and transfer agent fees

Charges payable to registrars and transfer agents in connection with effecting transfer of securities and bonds including stamp charges, cost of affidavits, notary charges, postage stamps and courier charges and other related charges would be recovered.

# (iv) Brokerage and transaction costs

The brokerage charges and other charges like service tax, stamp duty, transaction costs including bank charges, turnover tax, securities transaction tax or any other tax levied by statutory authorities, foreign transaction charges ( if any ) on the purchase and sale of shares, stocks, bonds, debt, deposits, other financial instrument and entry or exit loads (if any) on the purchase and sale of shares, stocks, bonds, debt, deposits, units of mutual funds or otherwise and other financial instruments.

The investment under the Portfolio Management Strategy would be done through registered member of stock exchange who may charge brokerage upto maximum of 2,5 % of the contract value. The investments under the portfolio management strategy would be usually done through SMC Global Securities Limited registered members of stock exchange. The brokerage fees will be charged at the rate as will be mutually decided by the parties in the client agreement.

All statutory and regulatory charges will be as applicable by respective authorities from time to time.

### (v) Securities lending and borrowing charges

The charges pertaining to lending of securities, cost of borrowing including interest and costs associated with transfer of securities connected with the lending and borrowing transfer operations would be recovered.

# (vi) Certification and professional charges

Charges payable for out sourced professional services like accounting, auditing taxation and legal services etc. for documentation notarizations, certifications attestations required by bankers or regulatory authorities including legal fees etc. would be recovered.

#### (vii) Incidental expenses

All incidental and ancillary expenses not recovered above but incurred by the Portfolio Manager on behalf of the client shall be charged to the Client.

The Portfolio Manager shall deduct directly from the cash account of the client all the fees/costs as specified above and shall send a statement to the client for the same. The fees charged to the client for PMS come under the ambit of "fees for technical services" under Section 194J of the Income Tax Act, 1961("the Act"). As the section calls for withholding tax, the client is required to withhold tax @ 10 % (plus applicable surcharge and education cess) on the fees that the client pays to the Portfolio Manager, if he / she fall under the following two categories:

- a) Individual / HUF client is required to deduct TDS if their accounts were subject to audit u/s 44AB in the previous year;
- b) Corporates- This implies the client while making payment of the fees would deduct tax at source.

#### 12. TAXATION

#### 12.1 General

The information given hereinafter is only for general information purpose and is based on the law and practice currently in force in India and the Investors should be aware that the relevant fiscal rules or their interpretation may change from time to time.

The portfolio gains in an account could be in the nature of capital gains (either short- term or long-term depending upon the holding period) or business income depending on the status and intent of the client at the time of entering into agreement for portfolio management.

In view of the above, and since the Individual nature of tax consequences may differ in each case on its merits and facts, each investor is advised to consult his/ her or its own professional tax advisor with respect to the specific tax implication arising out of its participation in the PMS Strategy/ option as an investor. The portfolio manager shall not be responsible for assisting in or completing the fulfillment of the Client's tax obligations. The following are the tax provisions applicable to Clients investing in the Portfolio Management Services under the taxation laws as on the date herewith, as advised by our Tax Consultants.

#### 12.2 Dividend

Dividends declared, distributed or paid on or after April 1, 2003 by domestic companies will be exempt in the hands of the shareholder recipient but a distribution tax (as a percentage of amount distributed) i.e. 15% percent (as increased by surcharge @12 percent) 2 percent Education Cess and 1 percent Secondary and Higher Education Cess) will be payable by the domestic company. Income distributed on or after April 1, 2003 by a mutual fund specified u/s 10(23D) of the Act will be exempt in the hands of the unit holders but a tax on distributed income will be paid as under:

☐ In case of distribution by a money market mutual fund or a liquid fund or any other fund:

Distribution to	Income Tax	Surcharge	Education Cess	Secondary and Higher Education Cess	Total
Individual or Hindu Undivided Family	33.33	3.99	0.75	0.37	38.45
Any Other person	42.86	5.14	0.96	0.48	49.44

However, no tax on such distributed income is payable by an equity oriented mutual fund.

### 12.3 Capital Gains Tax

Profit on sale of investments, (being shares in a company or any other securities listed on a recognized stock exchange in India or units of the Unit Trust of India established under the Unit Trust of India Act, 1963 (52 of 1963) or units of a Mutual Fund specified under Section 10(23D)) held for a period of more than 12 months (36 months in case of any other investments) immediately preceding the date of transfer, will be treated as long-term capital gains; in all other cases, it would be treated as short-term capital gains. The taxability of long-term and short-term capital gains is discussed below:

12,3.1 Transactions in securities on recognized stock exchange and in units of an equity oriented fund:

- □ Long term capital gains on sale of listed securities and on units of an equity oriented fund are exempt from tax when the transactions for sale take place on recognized stock exchanges and are subject to the Securities Transactions Tax ("STT"). However, such long Term Capital Gains arising to a company shall be taken into account in computing the book profit and income tax payable u/s 115JB.
- □ Short term capital gains on sale of listed securities and units of an equity oriented fund are taxable @15% (plus applicable surcharge, Education Cess and Secondary and Higher Education Cess) when the transactions for sale take place on recognized stock exchanges and are subject to the STT.
- □ Additionally, STT is payable in respect of purchase of listed securities and units of an equity oriented fund on recognized stock exchanges as follows

Sr. No.	Taxable securities	Transaction Rate (per cent)	Payable by
1	Purchase of equity share in a company where the transaction of such purchase is entered into in a recognized stock exchange (deliver based); Purchase of units of equity oriented fund, where the transaction of such purchase is entered into in a recognized stock exchange (deliver based);	0.1	Purchaser
2	Sale of equity share in a company where the transaction of such purchase is entered into in a recognized stock exchange (deliver based); Sale of units of equity oriented fund, where the transaction of such purchase is entered into in a recognized stock exchange (deliver based);	0.001	Seller
3	Sale of an equity share in a company or a unit of an equity oriented fund, where the transaction of such sale is entered into in a recognized stock exchange (non-delivery based)	0.025	Seller
4	Sale of derivative, where the transaction of such sale is entered into in a recognized stock exchange	0.017 of option premium in the case of sale of option (0.05 w.e.f 01 June 2016 where option is not exercised), 0.125 of settlement price in the case of sale of an option where option is exercised, 0.01 of the price in the case of sale of futures	Seller  Purchaser  Seller
5	Sale of unit of an equity oriented fund to the mutual fund	0.001	Seller
6	Sale of unlisted equity shares under an offer for sale to public	0.2	Seller

# 12.3.2 Transactions in other securities or transactions not on recognized stock exchanges

# (a) Tax on Long Term Gain

☐ For Indian Companies:

Long-term Capital Gains will be chargeable under Section 112 of the Income-tax Act, 1961, at the rate of 20 percent (plus applicable surcharge, Education Cess and Secondary and Higher Education Cess- see note) with indexation or 10 percent without indexation (plus applicable surcharge, Education Cess and Secondary and Higher Education Cess - see note).

☐ For Resident Individuals and HUFs

Long-term Capital Gains will be chargeable under Section 112 of the Income-tax Act, 1961, at the rate of 20 percent (plus Education Cess and Secondary and Higher Education Cess- see note) with indexation or 10 percent without indexation (plus applicable surcharge, Education Cess and Secondary and Higher Education Cess - see note).

Where the taxable income as reduced by long term capital gains is below the exemption limit, the long term capital gains will be reduced to the extent of the shortfall and only the balance long term capital gains will be charged at the flat rate of 20 percent (plus Education Cess and Secondary and Higher Education Cess see note).

#### ☐ For any other Resident:

Long-term Capital Gains will be chargeable under Section 112 of the Income-tax Act, 1961, at the rate of 20 percent (plus Education Cess and Secondary and Higher Education Cess- see note) with indexation or 10 percent without indexation (plus applicable surcharge, Education Cess and Secondary and Higher Education Cess - see note).

#### ☐ For any Non Resident or Foreign Company

Long -term Capital Gains on unlisted securities computed without giving effect to first and second proviso of Section 48 of the Income Tax Act, 1961, will be chargeable at the rate of 10 percent (plus Education Cess and Secondary and Higher Education Cess) and in cases other than Long -term Capital Gains on unlisted securities as above will be chargeable at the rate of 20 percent (plus Education Cess and Secondary and Higher Education Cess).

However, no tax will be charged on any income arising from the transfer of a long term capital asset, being an equity share in a Company or a unit of an equity oriented fund where the transaction of sale of such equity share or unit is entered into on or after 1<sup>st</sup> October 2004 and such transaction is chargeable to Securities Transaction Tax

# (c) Tax on Short Term Capital Gain:

Short-term capital gains on sale of short-term capital asset, being an equity share in a company or a unit of an equity oriented fund is chargeable to tax @15% (plus applicable surcharge, Education Cess and Secondary and Higher Education Cess- see note) as per Sec 111A, when the transactions for sale take place on recognized stock exchanges and are subject to Securities Transactions Tax (STT).

Short-term capital gains other than on sale of short-term capital assetare chargeable to tax as per the relevant slab rates.

# 12.3.3 Capital loss can be set off against any capital gains as follows:

Long-term capital loss of a tax year, which is chargeable to tax, cannot be set off against short-term capital gains arising in that year. On the other hand, short-term capital loss in a year can be set off against both short-term and chargeable long-term capital gains of the same year. Unabsorbed short term and long-term capital loss of prior years shall be separately carried forward. However, short-term capital loss shall be eligible for set off against the chargeable long term capital gains.

#### 12.4 Dividend stripping

Losses arising from the sale/transfer (including redemption) of securities including units purchased up to 3 months prior to the record date (for entitlement of dividends) and sold within 9 months (in case of units) or 3 months (in case of any other securities) after such date, will be disallowed to the extent of income distribution (excluding redemptions) on such units claimed as tax exempt by the unitholder.

# 12.5 Bonus stripping

In case of units purchased within a period of 3 months prior to the record date (for entitlement of bonus) and sold/ transferred (including redeemed) within 9 months after such date, the loss arising on transfer of original units shall be ignored for the purpose of computing the income chargeable to tax. The loss so ignored shall be treated as cost of acquisition of such bonus units.

#### 13. ACCOUNTING POLICIES

The following accounting policy/ valuation will be applied for the portfolio investment of clients:

- a, Investments in Equities / other traded securities and instruments (including debt and money market instruments) will be valued at the closing market prices of the Bombay Stock Exchange Limited. If these Securities / instruments are not listed on Bombay Stock Exchange then the closing market prices on National Stock Exchange of India Limited or any other exchange where the Securities are listed, will be considered for the purpose of valuations. The Portfolio Manager shall endeavour to be consistent in applying the policy adopted by it, Investment in the units of mutual funds will be valued at latest repurchase Net Assets Value (NAV) declared for the relevant Scheme on the date of valuation of portfolio investment. Non-traded and thinly traded equity securities / instruments, including those not traded within thirty days prior to the valuation date shall be valued at fair value as determined by SMC Global Securities Limited. Non-traded, thinly traded and unlisted debt and money market instruments shall also be valued at fair value determined by SMC Global Securities Limited. The Portfolio Manager shall use its discretion in valuation of securities with an intent to provide appropriate valuation to the investments held by the clients.
- b. Realized gains / losses will be calculated by applying the First In First Out (FIFO) method. For example, the earliest purchased quantity will be reckoned for the current / most recent sale at the respective prices at both points in time.
- c. Transaction for purchase or sale of securities will be recognized as of the trade date and not as of the settlement date so that the effect of all investments traded during financial year are recorded and reflected in the financial statements for that year.

For derivative transactions (if any), unrealized gains and losses on open position will be calculated by mark to market method.

- d. Unrealized gains/ losses are the differences between the current market values or NAV of even date and the historical cost of the securities.
- e. Dividend on shares and units in mutual funds, interest on debt instrument, stock lending fees earned etc. shall be accounted on accrual basis.
- f. The portfolio manager and the client can adopt any specific norms or methodology for valuation of investments or accounting the same as may be mutually agreed between them on a case specific basis.

# **CERTIFICATE**

To.

M/s SMC Global Securities Limited

Add: 11/6B, Shanti Chamber, Pusa Road, Delhi-110005.

We have been requested by **M/s SMC Global Securities Limited** (the Company) having Registered office at 11/6B, Shanti Chambers Pusa Road, New Delhi-110005 and having SEBI Registration No INP000006703, to certify the contents and information provided in the Disclosure document required to filed with the Securities and Exchange Board of India (SEBI) as per Regulations 22, Schedule V of SEBI (Portfolio Managers), 2020.

We have verified Disclosure Document dated April 16th, 2024 and the details with the respective documents provided by the Management of the Company and have relied on various representations made to us by the Management wherever necessary. The disclosure made in the document is made on the model disclosure document as stated in Schedule V of Regulations 22 of Securities and Exchange Board of India (Portfolio Manager) Regulations 2020.

To the best of our knowledge and on the basis of verification and information provided to us, we certify that disclosures made in the Document are true, fair, and adequate as required under Regulations 22 and schedule V of SEBI (Portfolio Managers) Regulations, 2020.

We have relied on the representation given by the Management about the penalties or litigations, group companies, performance calculation of the Portfolio Manager against the Portfolio Manager mentioned in the Disclosure Document.

This certificate has been issued solely for complying with the requirements of SEBI (Portfolio Managers) Regulations, 2020 for the sole purpose of certifying the contents of the Disclosure Document for Portfolio Management Scheme and should not be used or referred to for any other purpose without our prior written consent.
